October 2020 Traffic Stop Data Inspection

Inspection Report# BI2020-0130

Background:

The Audits and Inspections Unit (AIU) of the Bureau of Internal Oversight (BIO) inspects Traffic Stop Data collected in the TraCS system on a monthly basis. To achieve inspection results the inspector will utilize the TraCS system, JWI, I-Net Viewer, Body-Worn Camera video, (www.Evidence.com), and Communication Recordings. These entries will be uniformly inspected utilizing a matrix developed by the Bureau of Internal Oversight. Additionally, a JWI inquiry will be made on all deputies involved in the traffic stop to determine if a license and/or warrants check was run during the stop.
